

## POWER TRADING SCHEMATIC

2016

The *Power Trading Schematic* (PTS) provides a clear picture of the **commercial structure** of the energy market:

- 1) The NEM in the east and
- 2) The WEM in the west.

**Released in 2014** – this Market Map still provides a wealth of value to those who are new (*new employees and/or new companies*) to Australia's two main energy markets.

### Wholesale Market Suppliers

Listing of registered generator market participants – highlighting the stations they trade by fuel type and NEMMCO/IMO-WA classification

### Wholesale Market Traders

Those companies registered with AEMO under the "Trader" classification

### Wholesale Market Customers

Currently registered wholesale market customers are shown, with contact details

### Details for WA

Generator trading companies are listed for IMO-registered power stations

### Retail Market Participants

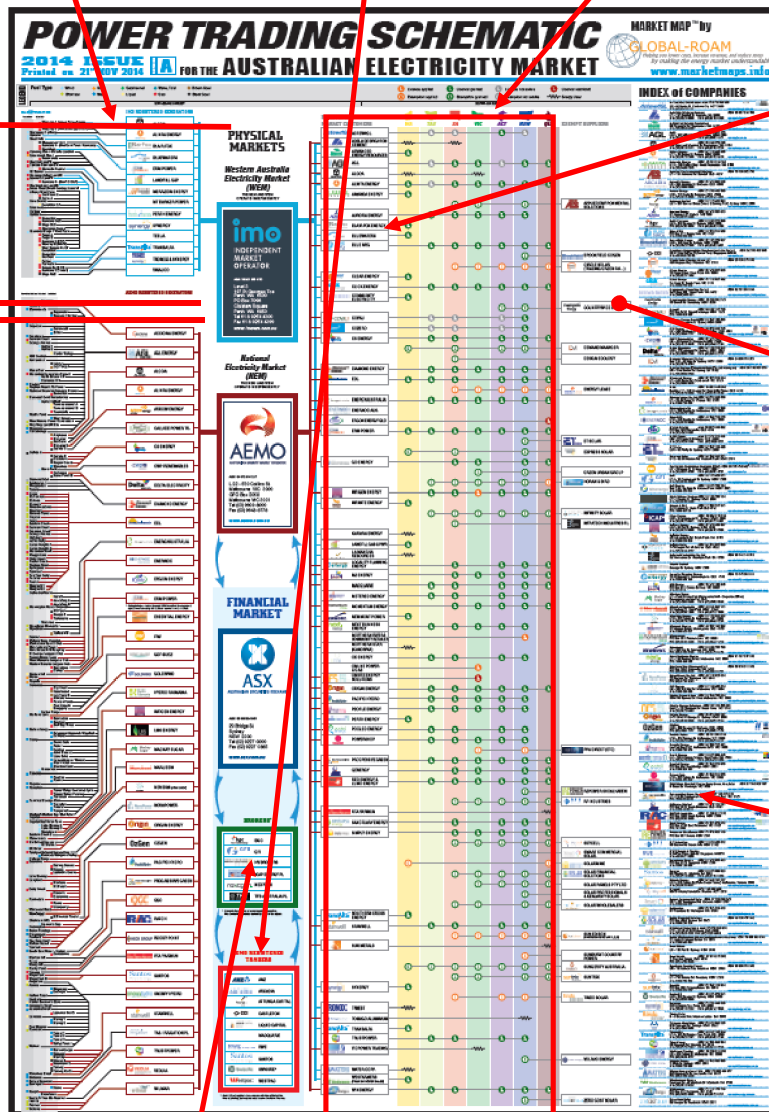

Listing of registered retailers in each state and territory

### Retail Exemptions

The recent explosion in companies gaining retail exemptions to supply electricity "behind the meter" – mainly through solar leasing arrangements has required the addition of a new category here

### Contact details

All companies listed on this Map are identified by address, ABN, phone, fax and URL

### Wholesale Market Operators

The spot and financial (futures and forwards) Market Operators (e.g. brokers) are identified

### Details for the NEM

Generator trading companies are listed for AEMO-registered power stations
